

SCAFFSHEET Economy Scaffold Sheeting

Scaffold sheeting is durable, heavy duty plastic sheeting for use as protection on scaffolding reducing rain and wind penetration which improves safety and the working environment for construction personnel. The distance between the eyelets is approximately 80mm.

Width – 2m

Length – 45m

GSM - 130

Weight – 11.7kg

Maximum Force N/50mm – Warp 340, Weft 470

Tear Resistance N – Warp 140, Weft 130

Tearing Resistance daN – 37.8

Tearing Strength N – Warp 38, Weft 35
